I confess I was rather puzzled at his ward Brough. Another good name for making so much out of an affair so bim would have been Edward trivial. I began to be curious to see him. I wrote him that I had a plan in "broughness"-if I may be allowed to my head for a bit of fiction, and I would like him to do the work except than brusqueness. He never came to so far as one of the characters was the office, always malling his manu- concerned-a woman. Her part I scripts, so I never saw him. I pictured thought I should put in myself. I asked him to call and talk with me about it the next afternoon at 4

Washington, Nov. 23,-Senator Bornh the game played with President of Idaho, who has been in the West all Zelaya will be made by Secretary Knox summer and who travelled for a time and it will be an important and prob- with the senate committee on irrigation ably decisive one.

Zelaya has killed two Americans it portant government irrigation projects, is believed, in the most summary and was a White House visitor yesterday. is believed, in the most summary and brutal manner, and it is not expected that he will be permitted to settle at so much a head for these or any other American citizens he may see at to kill. It is therefore reasonable to believe that something more than compensation for the death of Grace and Cannon will be involved in the next step taken by the state department.

Announcement was made by Assistant Secretary Wilson that nothing aditional had been heard from Nicaragua sinice yesterday afternoon. It appears that the department is awaiting additional information as to the details of President Taft in his Spokane speech

was a White House visitor yesterday. It is understood that the committee has decided to recommend to Congress a bond issue of from \$30,000,000 to \$40,000,000 for the immediate completion of at least thirty-two approved projects, the bond to be paid from time to time out of revenues received from the sale of public lands. Irrigation work is now paid for out of these revenues, but the income is so slow that if the projects were carried forward only as the money comes to hand many years would elapse before water could be turned on the lands.

The particular classes of stone used to sharpening edge tools, such as rasors, knives, scythes, etc., are hard, that the department is awaiting additional information as to the details of

A Judicial Repract.

A mellow old lawyer who used to live on the banks of the Androscoggin was famous for his fine distinctions. But often after the shades of night had fallen the squire might have been seen struggling home so boozy that he apparently could not split a shingle, to say nothing of a hair. One night when he was drunker than usual he staggered completely out of his course and could not find it. Realizing that he was lost and drifting into unfamiliar regions, he called at a house to ask for information, "Madam," he gravely said to the lady who came to the door, candle in hand, "can you tell (hic) me where Squire Blank lives?"

"Certainly," she said and gave him full directions. But as she talked and looked and as her candle gradually brought out the features of the man before her a puzzled expression came Into her face, and she finally said, "But Isn't this Squire Blank?"

"Madam," replied the old lawyer, assuming a judicial air, "that is entirely (hie) immaterial."

Survival of Fittest. Miss Helen Mathers thinks that the decline of the novel is due to a large extent to motorcars. There is no doubt that a large class of readers have been almost entirely eliminated by these vehicles. We refer to those persons ,who used to read as they walked along the roadway.-Londou Punch.

Many a young man starts in to work fired with a noble ambition. Then the ambition evaporates, and he gets fired.

from agrillaceous schists of the paleozoic. These stones are found in Turkey, Bohemia, Persla and the Harz mountains, in Styria, in the United States, Spain, Peru and Siberia. One of the best American stones for hones comes from Arkansas,

The stomach is a larger factor in "life, liberty and the pursuit of happiness" than most people are aware. Patriotism can withstand hunger but not dyspepsia. The confirmed dyspeptic "is fit for treason, stratagems and spoils." The man who goes to the front for his country with a weak stomach will be a weak soldier and a fault finder. A sound stomach makes for good citizenship as well as for

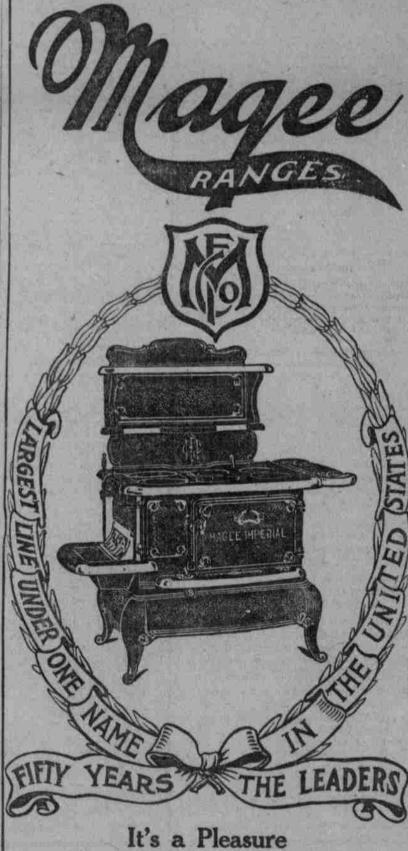

health and happiness.
